

REMARKS

Claim 15 has been amended to make it even more clear that when the solution is cooled to the second temperature, which is a temperature at which it solidifies, that temperature is at least 25°C and antecedent basis for the phrase in claim 19 has been provided by making a suitable amendment to claim 17. In light of these changes, it is respectfully submitted that the rejection under 35 USC 112, second paragraph, is moot and should be withdrawn.

The obviousness-type double patenting rejection is provisional and therefore does not require a response. Nevertheless, to moot the rejection, a Terminal Disclaimer over co-pending application 10/504,490 is submitted herewith.

Dated: November 8, 2006

Respectfully submitted,
